

## Farmowners Updated Image Uploading

In order to provide a streamlined look to the quote pages, we have removed the Quote Imaging sections from all but the Quote Results page and the Insured Info page (the Insured Info page will only display the Quote Imaging section once when at least one file has been uploaded from the Quote Results page).

In addition, the process to upload images on farm quotes (and policies) has been updated. Each image will now be tied to a specific quote/policy coverage (such as dwelling, and the various coverage E farm buildings), or be tied to a category (such as miscellaneous, non-farm building and wood stove).

Select the appropriate item in the dropdown and click 'Add Attachment'. The file upload window will open. Enter the description and click upload. If you don't see the image click "Refresh."

The filename and description will automatically fill in after the upload.

## File Upload Interface

Attachment description and file(s) selection

Filename	Description
barn.png	<input style="width: 90%;" type="text" value="The front of the barn"/>

Quote Imaging

File Name	Submitted By	Description	Note	Received Date	
<a href="#">barn.png</a>		3 - Barn 40x96	The front of the barn	8/14/2017 3:27:06 PM
